FAQ : Projets thématiques et mini-sites

La main à la pâte offers a wide range of [projets pédagogiques](#) that highlight a multidisciplinary and collaborative approach and international science education.

Each project provides key resources in hand to the master, a dedicated website (here called "mini-site"), multimedia tools... and gives rise to special training for teachers and trainers.

The implementation of these projects generally ranges over several months. The resources we offer are mostly public and free to access, but the full study guide is generally reserved for registrants.

First, as we emphasized above, each project is a mini-website on its own. Being registered on the general site's hands - not routinely gives access to all the mini-sites of all projects for a very simple reason: **we estimate the number of classes that each project could interest**, and this is why we ask for registration site by site.

So you have to join the project site, and two choices available to you :

- WHETHER you are not yet registered, and you must [create an account on the mini-site project](#)
- WHETHER you are registered on the general site *La main à la pâte* (here, so) but not on the project site, and then you click on the link "[Subscribe to this group](#)" on the first page of the mini-site project

So you can access the online educational module and order form curriculum guide (subject to availability). Do not forget to check that your address is correct!

If you are registered anywhere, you can register directly on the mini-site project.

1. **1:** from the home page, click "**Register**"

2. **2:** fill in the form (see [here](#) for details). In this form, a check box allows you to control the educational guide the project (if it is available)

NB: direct entry to a mini-site creates an account on the website of the hands-on. This account can then be used to register for other projects (other mini-sites), see below.

If you are registered on the general site's hands-on, you can register directly on the mini-site project.

The screenshot shows the homepage of the website "Calendriers, miroirs du ciel et des cultures". The header includes the site logo, navigation links for "Page d'accueil", "Enseignants", "Élèves", and "Blog", and a language selection menu with a "Contact" button and a notification badge showing "1". The main content area features a large banner with the title "Calendriers, miroirs du ciel et des cultures" and a calendar strip for February and March. Below the banner are three smaller sections: "Espace enseignants" (with a badge "3"), "Espace élèves" (with a magnifying glass icon), and "Espace presse". On the right side, there are two informational boxes: "Calendriers, miroirs du ciel et des cultures" with a description of the project and "Mon espace membre" with a "Connecté" status and a badge "2". The footer contains logos for "PARTENAIRES DU PROJET", including "FONDATION La main à la pâte", "Éducation nationale", "Cesà", "iMCE", "2008", and "Le Pommier".

1. **1:** from the home page, click "**Join this group**"
2. **2:** if you don't see this button, it's probably because you did not identify.
1. **3:** After identification, if an instructional guide paper proposed by the project, you can "**Order Guide**" by the button at the top right. Do not forget to check that your address is correct!
